

intimus CD 15 Cash Deposit System

Great cash deposit performances in a small cabinet

- Self-service cash deposit device designed to make retail cash handling secure, efficient and cost effective.
- Repeated and time-consuming manual counting is eliminated and the risk of mistakes, shrinkage and waiting time is reduced to a minimum.
- Automatic and immediate balance.
- Electronic tracking and reporting of transactions and funds.
- Secure on-site storage of banknotes.
- Front office cash deposit system to be installed under the counter.
- Counts and verifies every banknote deposited rejecting counterfeits.
- Controlled by an embedded PC.
