

**ENGINEERED *for* EXCELLENCE**

# Widmer RS

## Rotary Stamp, High-Speed, Cut-Sheet Signer/Endorser

The Widmer RS High-Speed, Cut-Sheet Signer/Endorser adds new dimensions to the concept of productivity and versatility.

*How?*

*In superior performance!*

The versatile RS will position your endorsement on the top of any check, or any place you want it, complying with all federal endorsement regulations.

And, it features unparalleled programmable accuracy, to within 1/32 of an inch.

*But, that's not all!*

The RS not only signs laser-generated checks, but also imprints labels, fixed messages and can sign, validate, date, and count endless numbers of office forms, letters, warranties, purchase orders, and much more. Virtually any size, and any location on the page.

The responsive RS rapidly digests volume runs in no time at all, increasing office efficiency and productivity in businesses, corporations, financial institutions, government and industries worldwide.

- The reliable RS is designed with flexibility to automatically feed and print large volume runs or the smallest quantities of imprinting.
- It features digital programming of document size for assured accuracy.
- Operations can pre-program to 9 different jobs.
- The RS remembers the last program used, even after stopping.
- User-friendly display prompts guide you through each format.
- Adjustable guides let you position any imprint to within a 15 1/2" x 16" area.
- The RS can print from 180 to 200 imprints a minute on a paper size from 2 7/8" x 2 7/8" to 12 1/2" x 14".
- A *Posi-Flow* hopper bin with bottom feed, keeps documents running smoothly, and in order.
- An adjustable stripper knob eliminates the feeding of more than one document at a time through the RS.
- A non-resettable audit counter records all RS imprinting, while a separate integrated batch control counter counts up, cumulates, and also counts down.
- Print head can be turned off for "count only" function.
- Tamper-proof, double-key security prevents unauthorized usage or removable of plates and drums.
- An unlimited number of drum and plate selections meet your imprinting, validating, dating and other combinations.
- Snap-out signature plates are easily and quickly interchangeable. These plates provide long-lasting performed and high-quality impressions.
